National Science Foundation

Dear Madam/Sir,

My group, Network Storage Infrastructure and Solutions, is pleased to collaborate with Prof. Ed Chang on his NSF/ITR proposed project: *Learning and Measuring Perceptual Similarity*. The proposal presents specific action items that will build upon their solid preliminary work including MEGA and SVMActive. I believe that the broader impacts of the proposed project will be significant in making information retrieval easier, more personal and efficient.

My organization plans to assist Ed's work in two ways.

1. Usability test. We will conduct usability study and provide feedback to Ed's research team.
2. Fellowship and internship.

Sincerely yours,

Honesty Young, Ph.D.
Senior Manager, Network Storage Infrastructure & Solutions
